An End to the Talk that the Ex-President Has Diverced Himself from Politics—He Will Be Initiated the First Meeting After His Estura from Caba—Vilas Also Joins.

Ex-President Grover Cleveland has not

divorced himself from politics, It was confidently expected on his retirement from the White House that he would devote himself entirely to the practise of his profession, and it was even asserted that rather than be mixed up with the Demo-cratic factions in this city that he contemplated recuring a residence in Westchester

That neither this expectation or assertion had a foundation in fact is made manifest when it is known that Grover Cleveland has been elected a member of the Tammany Society and will " ride the goat" at the Fourteenth street wigwam on the first meeting in April, immediately after his return from his

Mr. Cleveland will be supported on the ocession of his initiation by his ex-Secretary of State, Thomas F. Bayard, and ex-Secretary of the Navy Whitney, both old members of the Columbian Order, and at the same meet-

Among those who were inducted into the mysteries of the Society last evening were civil Jusice Alfred Steckler, Assemblyman Edward P. Hagan and Alderman James Gilligan, of the Suxteenth District: Warden Louis I. Fillsbury, of the Blackwell's Island Penitentiary; Warden Roberts, of the Charity Hispital: Alderman Noonan, of the Fourth District: ex-Aqueduct Commissioner Edgar L. Ridgway, the Poet Geoghan, George F. Lyon and Peter Doelger, jr., the brewer.

WILL HEWITT'S IRON WORKS GO SOUTH An Early Move to Chattanooga Said t Have Seen Decided Upon.

Ex-Mayor Abram S. Hewitt and Edward Cooper are the proprietors of the New Jersey Steel and Iron Works, at Trenton, N. J., with offices in this city.

Messrs. Hewitt and Cooper and Supt. Joseph Stokes, of the iron works, have been for some weeks in the South. They have made a comprehensive tour of Alabama, Georgia and Tennessee, and now Supt. Stokes is quoted in a I renton despatch as say-ing that on April 1 the works will be removed

He savs that the raw iron and coal supplies come from that region and the Company finds much of its market there also. If the works were there, the Company would make a saving of \$76,000 on the 38,000 tons of iron

used in a year.

The works employ 1,300 men, paying them \$1,000,0 0 in wages. The works were establighed in Trenton in 1848.

LANGTRY'S ILLNESS. ATTACKED BY HIGHWAYMEN

IT IS NOT TONSILITIS, BUT SEVERE NER-VOUS PROSTRATION.

Mrs. Langtry's house this morning was mugly curtained and the Lily was tasting the weers of a balmy repose when THE EVENING WORLD reporter called.

John, the footman, presented himself in iishabille, being in his shirt sleeves and a gorgeous pair of braces. He said to THE EVENING WORLD man :

"Yes," said he, "she was sick again yesterday. The carriage was here at 2 o'clock, but she got weak and had to send it away. I I don't know how she is this morning, as nobody has seen her. She must have been all right during the night, because nobody was rung for."

The reporter then went to Dr. Carter's. He greeted THE EVENING WORLD man cordially, and when asked it the statement about yesterday's operation was correct exclaimed :

"I am really glad to see you. I haven't seen any reporters, and the awful amount of stuff that has been written about this is tiresome. Reticence on the part of a physician

and have not burnt her cartilage with chromic acid.

'Bhe expected to go to Philadelphia yesterday, but although she is improving, she was not in a condition to go, except in her own private car, where she could lie down. The axle of the car was out of order, and it could not be got ready for the 3.30 o'clock train, so she put off going.

'It was a case of injured car, not injured cartilage, 's said the doctor, smiling.

'She will probably go to Lakewood for two or three days' rest. The trouble with Mrs. Langtry began through the use of cocaine, taken to get relief from hay fever, with which she was troubled last Summer. The cocaine brings relief, but even unally stops up the nose. No reputable physician would use it for a long time, but only for relief in an acute case.

'Nervous prostration is the difficulty with

for a long time, but only for relief in an acute case.

'Nervous prostration is the difficulty with Mrs. Langtry now. The tonsilitis is not bad. There is a great deal of it around now, but it is not a daugerous thing. It generally follows in the wake of scarlet lever and diphtheria and children are most affected by it. I would allow an actor to appear with tonsil its under proper treatment. It only lasts three days when rightly looked after.

'That is the whole thing," said Dr. Curtis. 'and I should like to see it put straight, for I never say anything to reporters on professional matters, and only speak to you now because I amindiguant that there has been such a lot of stuff said, thoroughly misrepresenting the case and me. It seems right to have the truth told."

A stream of citizens and policemen througed his office this morning to congratu-late the popular Superintendent upon his sate return. His invariable answer to their inquiries is: "I never feit better in my life."
